

We recommend that all students get a San Francisco Public Library card, whether or not you live in San Francisco.

An SFPL card gives you access to some incredible books and databases, including many that we don't have in our library.

You can see [all the different resources here](#).

If you apply while we are still sheltering in place, you can get a digital access card within 48 hours. This can be converted into a regular card once the Library is open again. [Apply online here](#).

If you have any questions about this, or anything else connected to the Library, please email the librarians at [library@sfuhs.org](mailto:library@sfuhs.org)
